

ET_CurrencyManager - Support #76

Изменение стиля для копеек

07/01/2011 01:57 PM - Jurij Nikolajev

Status:	Rejected	Start date:	07/01/2011
Priority:	Normal	Due date:	
Assignee:	Jurij Nikolajev	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	ver. unsorted tasks		
Invoice time (hours):			

Description

Идея тут: <http://www.magentocommerce.com/boards/viewthread/227753/>

Может быть полезно.

Люди хотели бы вместо 99.99 писать что-то вроде 99.99 и уже после этого управлять отображением копеек. Например делать их меньше или прибавать кверху, как в каталогах.

History

#1 - 08/21/2012 11:49 AM - Jurij Nikolajev

- Target version changed from ver. 0.5.0 to ver. unsorted tasks
- translation missing: en.field_remaining_hours set to 0.0

#2 - 09/04/2012 07:58 AM - Jurij Nikolajev

Очередной запрос:

```
thanks it worked. is it possible to separate the currency symbol from the value?
```

```
the html is like this now:
```

```
<span class="price">17.99NOK</span>
```

```
i want it to be:
```

```
<span class="price">17.99 <span class="currency-symbol">NOK</span></span>
```

```
is this possible through your extension? i really appreciate your work.
```
